**Call of the European Biodiversity Partnership on
“Nature-Based Solutions for biodiversity, human well-being and
transformative change (BiodivNBS)”**

2023-2024 joint Call

Funding Organisations rules

You will find in this document all the eligibility rules of the different Funding Organisations participating to the 2023-2024 [Biodiversa+ Call “BiodivNBS”](#).

Please note that the document may be adjusted through time. We invite you to make sure you have the latest version. If a new version is uploaded on the website, **a warning message will be indicated on the [Biodiversa website](#).**

Please make sure to consult these rules and to contact your Funding Organisations Contact Point for more information and in case of any doubt. We draw your attention on the fact that **compliance with Funding Organisations’ eligibility criteria and rules is mandatory**. Proposals that do not meet these criteria will be declared non-eligible and will not be evaluated.

FUNDING CONTRIBUTION AND BUDGET CAPS

Funding contribution to the Call (in EUR)	1,000,000€
Minimum and/or maximum amount of funding per awarded project (in EUR)	The FWF anticipates funding of 3-4 projects, given the maximum commitment of € 1 Mio for all projects. The maximum awarded amount of funding per partner is € 300.000

GENERAL ELIGIBILITY RULES

Eligible environment(s)	All (no restrictions)
Eligibility of a partner as a beneficiary institution	Individual researcher or teams of researchers, working in any kind of non-profit organisation: e.g. University, University hospital, Non-university research institute. Please refer also to the general FWF Funding Guidelines: Application guidelines Principal Investigator Project (PROFI mode) (fwf.ac.at) also available on: Joint Projects / ERA-Nets (fwf.ac.at)
Eligibility of costs, types and their caps	The current FWF salary scale (Personnel costs (fwf.ac.at)) indicates the salaries that may be requested. The FWF grants an annual salary adjustment to compensate for inflation; this is applied automatically to all contracts of employment in Principal Investigator projects that are valid when the adjustment takes effect. For scientists funded by the FWF, the

	<p>funding is limited to “project-specific costs, i.e. personnel and non-personnel costs that are essential to carry out the project and that go beyond the resources made available from the research institution’s infrastructure, according to the general FWF Funding Guidelines published at Application guidelines Principal Investigator Project (PROFI mode) (fwf.ac.at)</p> <p>The FWF does not finance infrastructure or basic equipment at research institutions. Overheads may not be requested. Subcontracts must be well justified, i.e. must represent the only or the most economical way to have the work performed, please contact the FWF directly for clarification of individual cases</p>
Should VAT be included in the budget figures provided?	Yes
Additional specific eligibility rules	<p>Researchers are eligible to apply if their publication record over the last five years has been internationally visible and if their current career stage is commensurate with the career progression expected in their field.</p> <p>Application guidelines Principal Investigator Project (PROFI mode) (fwf.ac.at)</p>

<p>be completed at the national/regional level</p>	<p>Principal Investigator Projects) must be submitted online to the FWF at https://elane.fwf.ac.at/</p> <p>This is required already at the pre-registration stage via the programme category “PIK – International Projects preproposal” deadline 10 November 2023, 15:00 CET (local time in Brussels) For the full proposal stage applicants must choose the programme category “PIN– International Projects” (Deadline 09- April 2024, 15:00 CEST (local time in Brussels). Both steps are mandatory. The maximum awarded amount of funding per partner is € 300.000</p> <p>All proposals must be submitted using the elane online portal. Project funding is administered through the research institution (PROFI); for this reason, the submission must be approved in the application portal both by the applicant and by the respective research institution</p> <p>Please note that the number of ongoing/approved projects in which one researcher can serve as principal investigator is limited to three in the Stand-Alone Projects Programme, International Programmes, Clinical Research and Arts-Based Research Programmes. Information on the limit of the number of ongoing/approved projects and thus the limit of applications that can be submitted can be found at project_number_limit.pdf (fwf.ac.at)</p> <p>For information on submitting an application from abroad see the FWF Website at Applications from abroad (fwf.ac.at)</p>
<p>Submission of financial and scientific reports at the national/regional level</p>	<p>n.a.</p>
<p>Other important information</p>	<p>Researchers are eligible to apply if their publication record over the last five years has been internationally visible and if their current career stage is commensurate with the career progression expected in their field. The following criteria are decisive in</p>

assessing their publication record—documented in the “Publication list” and in initiating the review process:

Quality assurance: Most relevant in assessing the applicant’s publication record are those publications that have undergone a quality assurance procedure in line with international standards (peer review or an equivalent procedure; in the natural and life sciences, peer review is expected). Journals must usually be listed in Web of Science, Scopus, or the Directory of Open Access Journals (DOAJ). In the case of journals that are not listed in these databases, or in the case of monographs, edited volumes, contributions to edited volumes, or other publication types, the applicant must provide a link to the publisher’s website, describing the respective quality assurance procedure. If no description should be available, it is the applicant’s responsibility to provide evidence that the publication has been subject to an appropriate quality assurance procedure.

International visibility: Most of the applicant’s publications must have a wider than national reach. In the natural sciences, life sciences, and social sciences, most of the publications listed must be in English.

Number/scope and quality of the applicant’s publications must be commensurate with the expected career progression and the field concerned. At least two publications must have undergone a quality assurance procedure and must be internationally visible with a substantial and independent contribution on the part of the applicant. At least one publication with first or last or corresponding authorship in the life sciences is required.

Should an applicant fail to meet one or more of the above criteria, the applicant must include an explanation with the application. In cases of doubt, the decision-making bodies of the FWF shall decide whether the research qualifications are adequate.

FUNDING CONTRIBUTION AND BUDGET CAPS

Funding contribution to the Call (in EUR)	750.000 EUR in total
Minimum and/or maximum amount of funding per awarded project (in EUR)	Maximum 250.000 EUR per project/consortium (overhead included).

GENERAL ELIGIBILITY RULES

Eligible environment(s)	All environments are eligible, if the type of research fits the appropriate FWO funding channels scope.
Eligibility of a partner as a beneficiary institution	<p>The FWO integrates two of its national/regional funding channels within this multilateral framework. The choice of funding channel depends on the <u>type of project</u> the researchers from Flanders wish to undertake.</p> <p>The eligibility of institutions and its researchers can be verified in the relevant and respective chosen funding channels regulations, which can be consulted on the FWO website:</p> <ul style="list-style-type: none">- FWO Research Projects (FO)- Strategic Basic Research (SBO)
Eligibility of costs, types and their caps	<ul style="list-style-type: none">○ The FWO foresees a budget of 750.000 EUR, which allows for the funding of at least three projects.○ The respective funding channel regulations apply (see links to national

	<p>rules above), and both are capped at max. 250.000 EUR per project/consortium (incl. overhead, for which the calculation method diverges per funding channel; see explanation below).</p> <ul style="list-style-type: none"> ○ For the overhead calculation, the fundamental (FO) and strategic research projects (SBO) apply the same approach. A structural overhead rate should be applied on the project costs, with an overhead rate of 6% for ‘FO’ projects, and a 17% overhead rate for ‘SBO’ projects. Some practical examples: <ul style="list-style-type: none"> ➤ <u>FO</u>: the sum of all costs (personnel, consumables, travel, subcontracting, etc.) amounts to 200.000 EUR, then the overhead will amount to 12.000 EUR (6% of 200.000 EUR) and the total requested cost is 212.000 EUR. This total requested cost may never exceed the max. available amount of 250.000 EUR. ➤ <u>SBO</u>: the sum of all costs (personnel, consumables, travel, subcontracting, etc.) amounts to 200.000 EUR, then the overhead will amount to 34.000 EUR (17% of 200.000 EUR) and the total requested cost is 234.000 EUR. This total requested cost may never exceed the max. available amount of 250.000 EUR.
<p>Should VAT be included in the budget figures provided?</p>	<p>Yes</p>
<p>Additional specific eligibility rules</p>	<p>!! NEW !!</p> <ul style="list-style-type: none"> ○ Applicants for FWO funding must submit a mandatory administrative application via the FWO e-portal. For fundamental research projects (FO) select the application type: “Research projects – European programme fundamental research”. For strategic basis research projects (SBO) select the application type: “Research projects – European programme strategic basic research”. In case the consortium includes more than one partner requesting funding from FWO, a <u>single</u>

online form should be submitted containing all relevant information from the different Flemish partners.

The **deadline to submit this administrative application to the FWO is identical to the deadline of the joint transnational call** (preproposal stage). To ensure the eligibility of the proposal, it is recommended to consult the FWO administration at least one week in advance.

Failure to comply with these requirements can lead to ineligibility.

- Participation in this call does not interfere with the 'regular/national' project submission framework, and is consequently not taken into account for calculating the max. available number of new applications and running projects combined. However, **researchers can only participate within 2 different international consortia in this call.**
- Projects aiming at the development of a spin-off company are not eligible in this context.
- The project duration is limited to 36 months, which implies the funding has to be budgeted and spent accordingly. An automatic prolongation and using positive (financial) balances after the end date is not applicable in this framework. As such article 28 of the [FWO Research Projects](#) and article 14 of the [Strategic Basic Research \(SBO\)](#) regulations do not apply here.
- The PI, for each of the participating institutions applying for FWO funds, must hold an **appointment that fully covers the duration of the research project.**
- Linked to the above, when it comes to the [FWO research project regulations \(FO\)](#): article 10, §7 is not applicable in this call. I.e. supervisors (-spokespersons), or coordinators/consortium partners in

	<p>this context, who are granted emeritus status during the calendar year of submission of the project application or during the duration of the project, are not eligible.</p>

OTHER IMPORTANT INFORMATION:

<p>Submission of the pre- and full proposal and other administrative requirements to be completed at the national/regional level</p>	<p>A mandatory administrative application has to be submitted at regional level, via the FWO e-portal (also see 'Additional specific eligibility rules').</p>
<p>Submission of financial and scientific reports at the national/regional level</p>	<p>Scientific reporting according to the Biodiversa+ call requirements.</p> <p>Financial reporting according to the FWO fundamental research project (FO) or SBO project regulations.</p>
<p>Other important information</p>	<p>It is strongly advised to approach the FWO contact points mentioned above, in order not to jeopardize any research projects/consortia. Certainly when there exists no or little experience with this type of framework.</p>

Fundamental Research	100 %	100 %	100 %
Applied Research	65 %	75 %	80 %

Eligibility of costs, types and their caps

Eligibility of costs: MVZI will fund all eligible costs of successful Slovenian transnational projects, recommended for funding, in accordance with the Decree on the scientific research funding from the budget of the Republic of Slovenia ([Uredba o financiranju znanstvenoraziskovalne dejavnosti iz Proračuna Republike Slovenije](#) (Ur. l. RS, št. 35/22 in 144/22)).

Eligible costs are defined based on the FTE value according to the Slovenian Research & Innovation Agency's research project categorization (A, B, C or D based on the research conducted).

Eligible costs must be directly related to the research conducted and mandatory include all of the following categories as elements of the FTE:
 - personnel (including social security, health, pension and other contributions according to national legislation);
 - material (travel and meetings costs, consumables, dissemination and knowledge exchange costs, other costs);
 - depreciation costs. Overhead or indirect costs are eligible. The value is calculated based on the FTE value of category A, B, C, or D research projects, under the condition that costs under each of the specific FTE elements are appropriately decreased (by a max. of 25% for indirect costs). Providing the stipulated conditions are met, the Public Procurement Act ([Zakon o javnem naročanju](#) (Ur. l. RS, št. 91/15, 14/18, 121/21, 10/22, 74/22 – odl. US in 100/22 – ZNUZSZS)) applies.

Period of eligibility of public expenditures: as of budgetary year 2025 until the end of the budgetary year 2027.

Period of eligibility of expenditures on the project: From the starting date of the transnational project stipulated in the consortium agreement for a period of 36 months, with a prescribed additional 30 day period for the payment of invoices related to the project costs. The period of eligibility of expenditures on the project can only start from the date the national contract enters into effect. The exact duration of the project will be defined in the contract between MVZI and the selected Slovenian partner, after the consortium agreement between the selected consortium partners enters into force.

Should VAT be included in the budget figures provided?	Yes
Additional specific eligibility rules	Slovenian applicants cannot declare subcontracting costs. In case external subcontracting services will be required, they can plan to do so within the maximum of the selected price category - material costs and services.

GENERAL ELIGIBILITY RULES

Eligible environment(s)	All areas in the call
Eligibility of a partner as a beneficiary institution	This call is open to working researchers residing in South Africa and affiliated with a recognised higher education or research institution such as a university, university of

technology or science council, small, medium (SMEs) and large enterprises in the private sector and national system of innovation (NSI) organisations involved in R&D.

It is “obligatory” for South African lead researcher/principal investigator (PI)s based at historically advantaged institutions, SMEs and large companies to include, as part of the research team, a research partner from any of the historically disadvantaged institutions. Proposals submitted by an applicant based at a historically advantaged institution without a research partner from a historically disadvantaged institution will be ineligible. The research partner from the historically disadvantaged institution in this case can serve as a co-applicant in the proposal.

Applicants based at historically disadvantaged institutions can act as PIs and submit proposals without the involvement of and or partnering with researchers based at historically advantaged institutions if they prefer.

Please note that only the following eight universities will be recognized as historically disadvantaged in line with the Department of Higher Education and Training November 2015 Ministerial Statement on university funding:

- University of Limpopo (UL)
- University of Fort Hare (UFH)
- University of Venda (Univen)
- Walter Sisulu University (WSU)
- University of the Western Cape (UWC)
- University of Zululand (UniZulu)
- Mangosuthu University of Technology (MUT)
- Sefako Makgatho Health Sciences University (SMU).

Historically Disadvantaged Institutions and Individuals also refers to: SMEs owned by Black and Female Individuals.

	The inclusion of emerging researchers and youth innovators is strongly encouraged.
Eligibility of costs, types and their caps	<p>Costs of personnel DSI will cover personnel costs including MSc and PhD bursaries to be incurred during project implementation.</p> <p>Eligible costs Each project will go through a financial negotiation process with the DSI to finalise the exact percentage funding and to ascertain what the funding will cover. The funding will be transferred in tranches in accordance with the project duration. The following costs will be covered;</p> <p>Travel and Daily subsistence allowance including accommodation</p> <p>The DSI will cover travel costs in line with the guidelines of South African government regulations. Consumables and supplies Any consumables necessary for the implementation of the project may be considered as direct eligible costs. Consumables are only eligible costs under the project if bought after the start date of the project.</p>
Should VAT be included in the budget figures provided?	Yes
Additional specific eligibility rules	Cut-off dates will be the same as the ones defined for the call; however, researchers are advised to present their proposal outline to the DSI at least one month before submission. This is to allow the DSI to ascertain the eligibility of the project to qualify for funding. Failure to liaise with the DSI may lead to automatic disqualification of the project from being funded.

INFORMATION AVAILABLE AT:	Upon email request to the National Contact Points or information can be accessed on the following link: https://www.dst.gov.za/ under the services tab, click on “Projects” and “ESASTAP”.

GENERAL ELIGIBILITY RULES

Eligible environment(s)	No restrictions
Eligibility of a partner as a beneficiary institution	<p>For scientists based in the Kingdom of the Netherlands, the NWO eligibility criteria apply.</p> <p>Full, associate and assistant professors, lecturers and other researchers with a comparable position* may submit an application (i.e. participate in a consortium and request NWO funding) if they have a tenured position (and therefore a paid position for an indefinite period**) or a tenure track agreement at one of the following organisations:</p> <ul style="list-style-type: none">• universities located in the Kingdom of the Netherlands;• university medical centers;• Institutes affiliated to the Royal Netherlands Academy of Arts and Sciences (KNAW) or NWO;• Universities of applied sciences as referred to in Article 1.8 of the Higher Education and Scientific Research Act (WHW);• TO2 institutes• the Netherlands Cancer Institute;

- the Max Planck Institute for Psycholinguistics in Nijmegen;
- Naturalis Biodiversity Center;
- Advanced Research Centre for NanoLithography (ARCNL);
- Princess Máxima Center.

*A comparable position refers to a researcher that has a demonstrable and comparable number of years of experience in carrying out scientific research and supervising other researchers as a full, associate or assistant professor.

** Lectors employed at a university of applied sciences and researchers employed at a TO2 institute may also submit provided that they have at least a salaried position for a limited period of time.

Persons with a zero-hour employment agreement or with a contract for a limited period of time (other than a tenure track appointment and the exception stated above for lectors and researchers employed at a TO2 institute) may not submit a proposal.

It could be the case that the applicant's tenure track agreement ends before the intended completion date of the project for which funding is applied for, or that before that date, the applicant's tenured contract ends due to the applicant reaching retirement age. In that case, the applicant needs to include a statement from their employer in which the organisation concerned guarantees that the project and all project members for whom funding has been requested will receive adequate supervision for the full duration of the project. Applicants employed by a university of applied sciences or a TO2 institute whose employment ends before the intended completion date of the project for which funding is applied must also include such a statement.

	Applicants with a part-time contract should guarantee adequate supervision of the project and all project members for whom funding is requested.

<p>Other important information</p>	<p>Impact of the research is at the heart of this call. Please refer to the detailed description of requirements and evaluation criteria, including impact, in the full call announcement of the Biodiversity Partnership.</p> <p>Stakeholder engagement is essential to maximize the chances of reaching impact and NWO considers engagement of stakeholders an important asset, starting with the design of your project, as well as the definition of active roles for each of them during the course of the project. Valorisation of stakeholder engagement in the project (as self-financed industrial and/or societal partner) in the form of in kind or in cash contributions from stakeholders is therefore strongly recommended by NWO</p> <p>The NWO Grant Rules 2017 and the Agreement on the Payment of Costs for Scientific Research 2008 are applicable to the part of the project's budget covered by the grant from NWO.</p> <p>Under the Dutch General Administrative Law Act, any interested party has the right to lodge an objection to the decision taken by NWO within six weeks of the date of the decision letter. Further information about the objections procedure can be found on the NWO website.</p> <p>For this call, the budget for the Kingdom of the Netherlands is brought together by the Dutch Research Council (NWO) and the Dutch Ministry of Agriculture, Nature and Food Quality (LNV).</p>
