2026-2027 Joint Call

Novel ecosystems: biodiversity, socio-ecological consequences and future trajectories

#BiodivFuture

Two submissions are required:

To Biodiversa+ partnership according to the call published on the partnership website.

Submission through Biodiversa+ Electronic Proposal Submission System (EPSS).

PLUS

To MoEP according to the call that was published today on the Ministry website

Submission through the digital tender box of the MoEP according to the guidelines in the Ministry's call.

You must meet the conditions of the two calls

Novel ecosystems: biodiversity, socio-ecological consequences and future trajectories

#BiodivFuture

Which organizations are eligible to submit proposals?

- Research institutions recognized by the Israel Science Foundation.
- Independent researchers, local authorities, NGOs, etc., can collaborate with eligible research institutions and receive funding for their part in the research project.

Novel ecosystems: biodiversity, socio-ecological consequences and future trajectories

#BiodivFuture

The proposal

Fill out the proposal form and attach the required documents.

The abstract

One page summary (in Hebrew) that will briefly include the project and detail the part of the Israeli researcher(s). It is necessary to specify the work that will be carried out in Israel.

The budget

- Pay attention to the total maximum budget for one proposal (for all Israeli researchers who take part in the proposal) for all the years.
- You should pay attention to restrictions regarding the budget, for example scholarship for a PhD student, costs for equipment, the overhead percentage, etc.

The data submitted to Biodiversa+ and to the Ministry must be identical

2026-2027 Joint Call

Novel ecosystems: biodiversity, socio-ecological consequences and future trajectories

#BiodivFuture

From the preproposal to the full proposal?

A researcher who will be invited to submit a full-proposal, will not be able to replace the proposing organization or change any detail in the proposal that affects its compliance with the threshold conditions.

Q + A

- Questions may be submitted until: **October 2026 8**
- Answers to submitted questions will be published by: **October 2026 21**

Thank you !
